

Dear Sponsors and Yangbum Gyal,

Because of your love and support we were able to complete the renewal of the school play ground, building a new school gate, and flower beds front of classrooms. Now students and teacher don't need to worry about walking in mud in summer and dust in winter. Having a beautifully designed and nicely built new gate, it not only increases the motivation and joy of students to come to school. It also makes students more diligent in their study. When flowers are in blossom it adds more fragrance and lovely environment where students can enjoy their study and play.

In addition, people of Jamo, Sokru and Tsozhi villages were so moved and thrilled by your kindness. Everyone is happy and sends their gratitude with two hands in Tibetan greeting and thumbs-up gesture. We all, students and teachers at Jamo school would like to thank all the sponsors from our bottom of our hearts for helping us. We again want to ask you, please keep us and our school in your thoughts and lend us your helping hand in future, too.

We, the teachers will do our best in educating the students and make your wish and dream of this help to bring success to students, their homes, villages and country.

Sincerely,
Students and teachers,
Jamo School
Oct 1, 2009

I would like to thank the David & Stacy Lerner Foundation, Marion Nelson, Alex Adams, John Vu, Susan and David Aherns-Arendt, Lois Crosby, Kim Hammer for your contribution in making Jamo School project possible. I also want to thank Danielle Schweiss for helping in making the brochure and translating the documents.
